RISK ASSESSMENT

Tuck Shop

Hazard	At Risk	Control Measures	Further Action
Spread of infection due to proximity in shop	Staff and visitors	Customers to queue outside supervised by a leader to ensure social distancing. Only one person allowed into the shop at any one time, face covering must be worn.	
Spread of infection due to contamination of goods	Staff and visitors	A Barrier located at the Tuck Shop entrance to stop access to shop counter and goods being handled by visitors prior to purchased. Staff to wear gloves and facemask.	
Spread of contamination during extended period in shop	Staff and visitors	Groups to book a time slot to keep a separation between groups. Customers can choose from a list outside and place their order when it is their turn to enter. The amount they spend to be noted against their name listed on a sheet provided by the Tuck Shop staff' or The Group Leaders can compile a list of the group's total purchase requirements for the staff to prepare the order in advance. Groups should consider pre-ordered Goody Bags. The total Tuck Shop bill to be added to the Group's visit bill.	
Spread of infection due to contamination of money	Staff and visitors	Due to the total of a group's tuck shop purchases being added to the group visit bill there will be no money transactions involved. .	
Spread of infection by contact with contaminated surfaces.	Staff and visitors	Regular cleaning of high touch points particularly between visits from different groups.	
Spread of infection by personnel	Staff and visitors	Staff to wear gloves and face masks Sanitising gel to be provided for visitors and Tuck Shop staff for dealing with stock..
